The online course was developed and is organized by experts of the Erasmus+ Sector Skills Alliance project titled DevOps Competences for Smart Cities MOOC (project number 601015-EPP-1-2018-1-EL-EPPKA2-SSA). The aim of the project is the professional development through appropriate training of the personnel who work or will work in municipalities, which are gradually transformed into Smart Cities.

This will be achieved with upskilling them with new IT skills and knowledge that are required for smart city management, such as the DevOps methodology.

One of the main project's objectives is to define new job profiles, for those who plan to work as smart city professional. These new job profiles are:

- Smart City Planner
- Smart City IT Manager
- Smart City IT Officer

Prerequisites?

No prior DevOps expertise is necessary!

Course Completion and Certification

A participant successfully completes a module if they have a grade of 60% or higher.

A participant who completes all courses successfully will be awarded a Certificate of Completion and will qualify for a second round of specialized training (no fees).

In the DevOps Competences for Smart Cities MOOC participants will:

- learn new ways software is designed and delivered today
- get an overview of smart city ecosystem including platforms, business models and financial management
- be introduced to new technologies (Cloud Computing, IOT, Data Analytics).

**NO FEES
APPLY**

Syllabus

Week	Starting Date	Module
1	19/10/2020	Creativity
2	26/10/2020	DevOps Basic Concepts, Culture and Practices
3	02/11/2020	Entrepreneurial Thinking
4	09/11/2020	Basic Concepts of Cloud Computing
	09/11/2020	Basic Concepts of Data Analytics
5	16/11/2020	Project & Process Management (part 1)
	16/11/2020	Stakeholder Management
6	23/11/2020	Software Development Life Cycles and Agile Methods
	23/11/2020	Ability to Work in Teams
7	30/11/2020	Reflection Week
8	07/12/2020	Strategic Vision
	07/12/2020	Smart Cities Platforms
9	14/12/2020	Basic Concepts of Internet of Things
	14/12/2020	Social Skills
10	04/01/2021	System and Software Architecture
	04/01/2021	Smart Cities Business Models and Financial Management
11	11/01/2021	Reflection Week

A large yellow hatched geometric shape on the left side of the page, consisting of a trapezoid on top and a larger trapezoid below it, both filled with diagonal lines.

Trainers

ACCIARI Mario

13. Social Skills

Mario Acciarri has many years of experience in the field of communication and socio-economic research. Over the years, he has taken part in numerous national and transnational research projects. He has collaborated with the University of Perugia and has worked as an expert lecturer in adult education courses.

ANTHOPOULOS Leonidas (University of Thessaly)

3. Entrepreneurial Thinking

15. Smart Cities Business Models and Financial Management
